

# TABLE OF Contents

LIST OF EXHIBITS .....	ix
ACRONYMS AND ABBREVIATIONS .....	xiv
LIST OF TECHNICAL DISCIPLINE REPORTS .....	xvii
EXECUTIVE SUMMARY .....	ES-1
ES.1 WHAT IS THE ST. JOHNS RIVER CROSSING PROJECT AND WHERE IS IT LOCATED?.....	ES-2
ES.2 WHY ARE WE PROPOSING THE PROJECT? .....	ES-2
ES.3 WHY IS THE PROJECT NEEDED NOW? .....	ES-3
ES.4 WHAT ALTERNATIVES ARE BEING CONSIDERED?.....	ES-4
ES.5 HOW WILL THE PROPOSED PROJECT BE FUNDED? .....	ES-5
ES.6 WHAT ARE THE POTENTIAL PROJECT IMPACTS? .....	ES-6
ES.7 WHAT ARE THE NEXT STEPS?.....	ES-11
CHAPTER 1: PURPOSE & NEED .....	1-1
<b>This chapter describes development factors in the project area that have led to the need for the St. Johns River Crossing Project.</b>	
1.1 WHAT IS THE ST. JOHNS RIVER CROSSING PROJECT?.....	1-2
1.2 WHY ARE WE PROPOSING THE PROJECT?.....	1-2
1.3 WHERE IS THE PROJECT LOCATED?.....	1-2
1.4 WHY IS THE PROJECT NEEDED NOW?.....	1-4
1.5 WHAT FACTORS HAVE AFFECTED DEVELOPMENT IN THE PROJECT AREA? .....	1-4
1.5.1 Population Growth and Development.....	1-4
1.5.2 Transportation Demand.....	1-8
1.5.3 Economic and Employment Conditions .....	1-10
1.6 HOW DOES THE AREA'S GROWTH AFFECT RESIDENTS' SAFETY? .....	1-12
1.7 WHAT OTHER PROJECTS ARE BEING IMPLEMENTED AS PART OF THE REGION'S TRANSPORTATION PLANS? .....	1-13
1.8 WHAT HAPPENS IF THE ST. JOHNS RIVER CROSSING PROJECT IS NOT BUILT? .....	1-13

## CHAPTER 2: DEVELOPING THE ALTERNATIVES ..... 2-1

This chapter describes how the alternatives for the St. Johns River Crossing Project were developed and what alternatives are considered in this Draft EIS.

2.1 HOW WERE PROJECT ALTERNATIVES DEVELOPED? .....	2-2
2.2 WHAT ALTERNATIVES WERE INITIALLY CONSIDERED? .....	2-4
2.2.1 Regional Transportation Planning Study (2002) .....	2-4
2.2.2 Arterial Corridor Analysis (2004) .....	2-7
2.2.3 Desktop Analysis (2004) .....	2-8
2.3 HOW WAS THE PUBLIC INVOLVED IN ALTERNATIVE DEVELOPMENT AND ANALYSIS? .....	2-10
2.3.1 Public Meetings.....	2-11
2.4 HOW WERE GOVERNMENT AGENCIES AND TRIBES INVOLVED IN ALTERNATIVE DEVELOPMENT AND ANALYSIS? .....	2-16
2.4.1 Advance Notification Package .....	2-16
2.4.2 Efficient Transportation Decision Making Process.....	2-16
2.4.3 Environmental Technical Advisory Team and Agency Coordination Meetings .....	2-18
2.4.4 Tribal Consultation .....	2-19
2.5 WHAT WERE THE RESULTS OF THE FINAL CORRIDOR AND DESKTOP ANALYSIS SCREENING? .....	2-19
2.5.1 Final Desktop Analysis (2008) .....	2-20
2.6 WHAT ALTERNATIVES WERE ELIMINATED FROM DETAILED EVALUATION IN THE DRAFT EIS, AND WHY? .....	2-21
2.6.1 Build Alternatives Eliminated.....	2-21
2.6.2 Transportation Systems Management Alternative.....	2-21
2.7 WHAT ALTERNATIVES ARE STUDIED IN DETAIL IN THIS DEIS? .....	2-22
2.7.1 No Build Alternative.....	2-26
2.7.2 Build Alternatives.....	2-27
2.8 WILL THE SHANDS BRIDGE REMAIN IN ANY OF THE ALTERNATIVES? .....	2-52
2.9 HOW WILL THE SHANDS BRIDGE BE REMOVED? .....	2-52
2.10 HOW MUCH WILL THE PROJECT COST?.....	2-53
2.11 HOW WILL THE PROJECT BE FUNDED? .....	2-54
2.12 WHAT IS THE IMPACT OF TOLLS ON BRANAN-FIELD CHAFFEE ROAD? .....	2-56
2.13 WHEN WILL CONSTRUCTION BEGIN AND HOW LONG WILL IT TAKE? .....	2-57
2.14 WHAT IS THE OBJECTIVE OF THIS DRAFT EIS? .....	2-57

2.15 WHAT FUTURE OUTREACH IS PLANNED FOR THE ST. JOHNS RIVER CROSSING PROJECT? .....	2-58
--------------------------------------------------------------------------------------	------

## CHAPTER 3: ENVIRONMENTAL RESOURCES, IMPACTS AND MITIGATION ..... 3-1

This chapter compares how the No Build and proposed Build Alternatives are expected to affect the natural, physical and social environments of the project area.

3.1 HOW WERE THE ALTERNATIVES EVALUATED? .....	3-2
3.2 HOW COULD ENVIRONMENTAL INFORMATION BE USED TO IMPROVE THE PROJECT?.....	3-3
<b>3.3 Traffic &amp; Transportation</b> .....	<b>3-4</b>
3.3.1 How were traffic and transportation evaluated? .....	3-4
3.3.2 How do the alternatives compare in their ability to move traffic? .....	3-4
3.3.3 What measures are proposed to avoid or minimize effects on traffic during construction? .....	3-9
<b>3.4 Emergency Evacuation</b> .....	<b>3-10</b>
3.4.1 What existing conditions were factored into the evacuation analysis? .....	3-10
3.4.2 How were the evacuation needs analyzed?.....	3-12
3.4.3 How do the alternatives provide for emergency evacuation? .....	3-14
<b>3.5 Noise</b> .....	<b>3-16</b>
3.5.1 How was noise evaluated? .....	3-16
3.5.2 How will the alternatives affect noise levels?.....	3-19
3.5.3 What measures are proposed to avoid or minimize noise impacts during operation? .....	3-25
3.5.4 What measures are proposed to avoid or minimize noise impacts during construction? .....	3-28
<b>3.6 Land Use</b> .....	<b>3-30</b>
3.6.1 What development is planned for the project area? .....	3-30
3.6.2 How will the proposed project affect land use in Clay and St. Johns Counties? .....	3-33
3.6.3 How will project construction affect land use? .....	3-35
<b>3.7 Socioeconomics, Communities and Neighborhoods</b> .....	<b>3-36</b>
3.7.1 What information was used to understand social, economic and community issues? .....	3-36
3.7.2 What are the population and housing trends in the study area? .....	3-36
3.7.3 How will the proposed project affect growth in Clay and St. Johns Counties? .....	3-37

3.7.4 Where do people from the study area work and shop? .....	3-37
3.7.5 What are the characteristics of residents in the study area? .....	3-38
3.7.6 How will the alternatives affect communities and neighborhoods?.....	3-42
3.7.7 How will the alternatives promote and support employment and economic development? .....	3-47
3.7.8 How will the proposed project affect tax revenues in the study area? .....	3-49
3.7.9 What measures are proposed to avoid or minimize project effects on communities and neighborhoods? .....	3-50
3.7.10 How will construction activities affect communities, neighborhoods, and businesses?.....	3-50
3.7.11 What measures are proposed to minimize construction effects? .....	3-51
<b>3.8 Environmental Justice</b> .....	<b>3-52</b>
3.8.1 How was environmental justice evaluated for the project?.....	3-52
3.8.2 Are there minority and low-income populations living in the study area? .....	3-53
3.8.3 How will the alternatives affect environmental justice populations? .....	3-55
3.8.4 What measures are proposed to avoid or minimize effects of the project on environmental justice populations?.....	3-59
<b>3.9 Cultural Resources</b> .....	<b>3-60</b>
3.9.1 How were cultural resources identified for the project area? .....	3-60
3.9.2 What cultural resources are located in the study area?.....	3-62
3.9.3 How will the alternatives affect historic, cultural, and archaeological resources? .....	3-68
3.9.4 What measures are proposed to avoid or minimize effects to cultural resources during construction?.....	3-68
<b>3.10 Section 4(f) Resources: Parks, Recreation and Historic Properties</b> .....	<b>3-70</b>
3.10.1 What is Section 4(f) and what resources does it protect? .....	3-70
3.10.2 What Section 4(f) parks and recreational resources are located in the study area?.....	3-71
3.10.3 What historic properties are located in the study area?.....	3-74
3.10.4 How will the alternatives affect Section 4(f) resources? .....	3-74
3.10.5 What measures were taken to avoid Section 4(f) properties? .....	3-77
3.10.6 De Minimis Impact Evaluation .....	3-82
3.10.7 What measures are proposed to avoid or minimize effects to Section 4(f) resources during construction and operation? .....	3-83
3.10.8 Which alternatives cause the least net harm? .....	3-84
<b>3.11 Public Services and Utilities</b> .....	<b>3-86</b>
3.11.1 How were public services and utilities identified and evaluated?.....	3-86
3.11.2 What public services and utilities are located in the study area? .....	3-86

3.11.3 Will the alternatives affect any public services and utilities? .....	3-88
3.11.4 How will construction activities affect public services and utilities in the study area? .....	3-90
3.11.5 What measures are proposed to avoid or minimize effects to public services and utilities during construction? .....	3-90
<b>3.12 Visual Quality .....</b>	<b>3-92</b>
3.12.1 How were visual resources identified and evaluated in the study area? .....	3-92
3.12.2 What visual resources were identified? .....	3-93
3.12.3 How will the alternatives affect visual resources? .....	3-94
3.12.4 Are any scenic highways located within the study area? .....	3-96
3.12.5 How were scenic highways evaluated? .....	3-97
3.12.6 How will the project affect scenic highways? .....	3-97
3.12.7 What measures are proposed to minimize the visual effects of the project? .....	3-100
3.12.8 What measures are proposed to avoid or minimize effects to visual quality during construction? .....	3-101
<b>3.13 Air Quality and Climate Change .....</b>	<b>3-102</b>
3.13.1 How was air quality evaluated for the project? .....	3-102
3.13.2 What air quality issues affect the study area? .....	3-103
3.13.3 How will the alternatives affect air quality? .....	3-103
3.13.4 How will construction affect air quality? .....	3-103
3.13.5 What measures are proposed to minimize effect to air quality during construction? .....	3-103
3.13.6 How were climate change and sea level rise evaluated for the project? .....	3-104
3.13.7 How might the proposed project affect climate change? .....	3-105
3.13.8 How are global warming trends determined? .....	3-105
3.13.9 How is the climate affecting sea level rise? .....	3-106
3.13.10 What are the expected impacts on the project from climate change and sea level rise? .....	3-108
<b>3.14 Water Resources .....</b>	<b>3-110</b>
3.14.1 How were water resources evaluated for the project? .....	3-110
3.14.2 What water resources are found in the study area? .....	3-110
3.14.3 What are the requirements for managing stormwater runoff? .....	3-112
3.14.4 How will the alternatives affect water resources? .....	3-113
3.14.5 What measures are proposed to avoid or minimize effects to water resources from the proposed road facility? .....	3-114

3.14.6 What measures are proposed to avoid or minimize effects to water resources during construction? .....	3-115
<b>3.15 Wetlands.....</b>	<b>3-116</b>
3.15.1 How were wetlands identified in the study area?.....	3-116
3.15.2 What wetlands are located in the study area? .....	3-116
3.15.3 How will the alternatives affect wetlands? .....	3-117
3.15.4 What measures are proposed to avoid or minimize project effects on wetlands? .....	3-120
<b>3.16 Wildlife and Habitat.....</b>	<b>3-122</b>
3.16.1 How were wildlife and habitats identified and evaluated in the study area?.....	3-122
3.16.2 What types of wildlife and habitats are found in the study area? .....	3-123
3.16.3 What is the probability of threatened and endangered species occurring within the Build Alternatives?.....	3-128
3.16.4 How will the alternatives affect wildlife, habitat and protected species? .....	3-133
3.16.5 What measures are proposed to avoid or minimize project effects to wildlife and habitat?.....	3-136
<b>3.17 Fish and Aquatic Resources.....</b>	<b>3-139</b>
3.17.1 How were fish and aquatic resources identified and evaluated in the study area? .....	3-139
3.17.2 What rivers and streams are in the study area and what is their condition now?.....	3-139
3.17.3 What kinds of aquatic resources occur in the study area?.....	3-140
3.17.4 Are there threatened and endangered aquatic resources in the study area?.....	3-141
3.17.5 How will the alternatives affect aquatic resources? .....	3-141
3.17.6 How will construction affect aquatic resources? .....	3-143
3.17.7 What measures are proposed to avoid or minimize the effects to aquatic resources? .....	3-143
<b>3.18 Geology and Soils.....</b>	<b>3-144</b>
3.18.1 What is the geology in the study area? .....	3-144
3.18.2 How will the proposed project affect geologic features? .....	3-147
3.18.3 What measures are proposed to avoid or minimize the effects to geology and soils?.....	3-147
<b>3.19 Energy.....</b>	<b>3-148</b>
3.19.1 How was energy evaluated for the project?.....	3-148
3.19.2 How much energy will it take to build the project? .....	3-148
3.19.3 How will the project affect energy use?.....	3-149
3.19.4 What measures are proposed to minimize energy usage?.....	3-151

<b>3.20 Hazardous Sites and Contaminated Properties .....</b>	<b>3-152</b>
3.20.1 How were hazardous sites and contaminated properties identified and evaluated in the study area? .....	3-152
3.20.2 What contaminated sites are located in the study area?.....	3-154
3.20.3 How will these sites affect the proposed project?.....	3-161
3.20.4 What hazardous materials may be used during construction? .....	3-161
3.20.5 What measures are proposed to avoid or minimize the effects of hazardous materials during construction?.....	3-162
<b>3.21 Navigable Waterways .....</b>	<b>3-163</b>
3.21.1 How were navigation issues evaluated for the study area? .....	3-163
3.21.2 What role does navigation play in the study area? .....	3-163
3.21.3 How would the alternatives affect navigation? .....	3-167
3.21.4 What measures are proposed to avoid or minimize the effects to navigation from the project?.....	3-169
3.21.5 What measures are proposed to avoid or minimize effects to navigation during construction? .....	3-170
<b>3.22 Floodplains .....</b>	<b>3-171</b>
3.22.1 What floodplains area located in the study area? .....	3-171
3.22.2 How will the alternatives affect floodplains? .....	3-173
3.22.3 What measures are proposed to avoid or minimize the effects of the project on floodplains? .....	3-173
<b>3.23 Indirect Effects .....</b>	<b>3-175</b>
3.23.1 What are indirect effects, and why do we study them?.....	3-175
3.23.2 How did we evaluate indirect effects? .....	3-175
3.23.3 What are the project’s potential indirect effects?.....	3-177
<b>3.24 Cumulative Effects .....</b>	<b>3-192</b>
3.24.1 What are cumulative effects and why do we study them? .....	3-192
3.24.2 How do we evaluate cumulative effects? .....	3-192
3.24.3 What resources were evaluated in this cumulative effects analysis? .....	3-193
3.24.4 What was the study area for cumulative effects analysis? .....	3-194
3.24.5 What other projects were included in the cumulative effects analysis?.....	3-194
3.24.6 What are the project’s potential cumulative effects? .....	3-195
3.24.7 How can cumulative effects be minimized? .....	3-207
3.24.8 Summary.....	3-210
<b>3.25 Summary Comparison of Alternatives .....</b>	<b>3-211</b>

## CHAPTER 4: OTHER CONSIDERATIONS ..... 4-1

This chapter looks at considerations other than project impacts: irreversible decisions the project would entail, tradeoffs between short-term resource use and long-term gains, permitting, adverse effects that cannot be mitigated, and areas of controversy related to the project.

### 4.1 What other considerations did FDOT examine? ..... 4-2

4.1.1 What irreversible decisions or ir retrievable resources would be committed to building the project? .....	4-2
4.1.2 What are the tradeoffs between the short-term uses of environmental resources and long-term gains from the project? .....	4-3
4.1.3 What major permits would be needed to build the project? .....	4-3
4.1.4 Are there any impacts that will remain even after mitigation? .....	4-4
4.1.5 What are the future traffic impacts to I-95? .....	4-6
4.1.6 What are the future traffic impacts to I-10? .....	4-10
4.1.7 What is the Locally Preferred Alternative? .....	4-11

Exhibit 2-25: Brown 1 and 2 Section 1 Detail .....	2-38
Exhibit 2-26: Brown 1 and 2 Section 2 Detail .....	2-39
Exhibit 2-27: Orange 1 and 2 Alternatives .....	2-41
Exhibit 2-28: Orange 1 and 2 Section 1 Detail .....	2-42
Exhibit 2-29: Orange 1 and 2 Section 2 Detail .....	2-43
Exhibit 2-30: Green 1 and 2 Alternatives.....	2-45
Exhibit 2-31: Green 1 and 2 Section 1 Detail .....	2-46
Exhibit 2-32: Green 1 and 2 Section 2 Detail .....	2-47
Exhibit 2-33: Pink 1 and 2 Alternatives.....	2-49
Exhibit 2-34: Pink 1 and 2 Section 1 Detail .....	2-50
Exhibit 2-35: Pink 1 and 2 Section 2 Detail .....	2-51
Exhibit 2-36: Estimated Project Costs .....	2-54
Exhibit 2-37: Toll-free Local Trip Route .....	2-55
Exhibit 2-38: Project Goals and Measures .....	2-58

## Chapter 3

Exhibit 3-1: Traffic Study Area.....	3-5
Exhibit 3-2: Measures of Effectiveness.....	3-6
Exhibit 3-3: Design Year Mainline and Level of Service .....	3-8
Exhibit 3-4: Hurricane Evacuation Zones.....	3-11
Exhibit 3-5: Storm Surge Zones.....	3-13
Exhibit 3-6: Alternative Comparison of Queue in Lane Miles and Vehicles .....	3-15
Exhibit 3-7: Noise Monitoring Locations.....	3-17

## LIST OF EXHIBITS (cont.)

Exhibit 3-8: Noise Model Validation Results .....	3-19
Exhibit 3-9: Location of Noise Impacts.....	3-21
Exhibit 3-10: Noise Impacts Comparison .....	3-22
Exhibit 3-11: Noise Analysis Summary .....	3-23
Exhibit 3-12: Noise Impact Comparison by Roadway Segment.....	3-25
Exhibit 3-13: Planning Areas and Districts.....	3-30
Exhibit 3-14: Major Developments in the Study Area .....	3-31
Exhibit 3-15: Summary of Major Development Types and Sizes .....	3-32
Exhibit 3-16: Land Use Conversions to Right-of-Way.....	3-33
Exhibit 3-17: Top Five Employers .....	3-38
Exhibit 3-18: Age Distribution .....	3-39
Exhibit 3-19: Household Transportation.....	3-39
Exhibit 3-20: Families and Households.....	3-40
Exhibit 3-21: Housing Characteristics .....	3-41
Exhibit 3-22: Family Income .....	3-41
Exhibit 3-23: Relocations.....	3-42
Exhibit 3-24: Community Cohesion .....	3-45
Exhibit 3-25: Limited English Proficiency (LEP) Households .....	3-46
Exhibit 3-26: Number of Local Access Interchanges.....	3-47
Exhibit 3-27: Employment Areas and DRI Tax Revenues within 2 Miles of Interchanges .....	3-48
Exhibit 3-28: Taxable Value Lost.....	3-49
Exhibit 3-29: Minority Populations (2006) .....	3-54
Exhibit 3-30: Median Household Income (2004) .....	3-54
Exhibit 3-31: Low-Income Population (2004) .....	3-55
Exhibit 3-32: Environmental Justice Areas.....	3-55
Exhibit 3-33: Summary of Potential Relocation Impacts to Environmental Justice Populations .....	3-58
Exhibit 3-34: Cultural Resources Areas of Potential Effect (APE).....	3-61
Exhibit 3-35: Previously Recorded Potentially Eligible Resources within the Area of Potential Effect (APE).....	3-63
Exhibit 3-36: Summary of Potential Impacts to Cultural Resources.....	3-67
Exhibit 3-37: Section 4(f) Recreation and Conservation Area Resources.....	3-71
Exhibit 3-38: Summary of Effects on Section 4(f) Resources.....	3-77

## LIST OF EXHIBITS (cont.)

Exhibit 3-39: Comparison of Section 4(f) Avoidance Alternatives.....	3-81
Exhibit 3-40: Emergency Services .....	3-87
Exhibit 3-41: Public Services and Utility Impacts.....	3-89
Exhibit 3-42: Viewsheds and Viewpoint Locations.....	3-94
Exhibit 3-43: Summary of Visual Impact Ratings .....	3-100
Exhibit 3-44: Sea Surface Height Anomaly (via Satellite at the Mouth of the St. John’s River) .....	3-107
Exhibit 3-45: Water Resource Use Categories and Outstanding Florida Waters .....	3-111
Exhibit 3-46: Clean Water Act Section 303(d) Impaired Waters in the Study Area .....	3-112
Exhibit 3-47: Stormwater Runoff.....	3-114
Exhibit 3-48: Wetland Impacts.....	3-117
Exhibit 3-49: Wetland Impacts by Type .....	3-118
Exhibit 3-50: Uniform Mitigation Assessment Methodology (UMAM) Functional Loss .....	3-119
Exhibit 3-51: Sample of Wetland Mitigation Credits Available.....	3-121
Exhibit 3-52: General Land Uses in Wildlife Study Area .....	3-122
Exhibit 3-53: Habitat Types in Study Area .....	3-124
Exhibit 3-54: Protected Species Potentially Occurring in Study Area .....	3-129
Exhibit 3-55: Habitat Impacts .....	3-134
Exhibit 3-56: Aquatic Habitat Impacts .....	3-141
Exhibit 3-57: Surficial Geology of the Study Area .....	3-145
Exhibit 3-58: Energy Consumed During Construction.....	3-149
Exhibit 3-59: Estimated Energy Consumption and Savings.....	3-150
Exhibit 3-60: Estimated Energy Payback Period.....	3-151
Exhibit 3-61: Potentially Contaminated Sites.....	3-155
Exhibit 3-62: Contaminated Site Impacts .....	3-161
Exhibit 3-63: Navigable Waterways Study Area .....	3-164
Exhibit 3-64: Floodplains and Floodways.....	3-172
Exhibit 3-65: Floodplain and Floodway Crossings .....	3-173
Exhibit 3-66: Build and No Build Scenarios .....	3-176
Exhibit 3-67: Forecasted Development .....	3-178
Exhibit 3-68: Vegetation and Habitat Types in the Area of Indirect Effects.....	3-185
Exhibit 3-69: Summary of Potential Indirect Effects (Without Mitigation) .....	3-190

## LIST OF EXHIBITS (cont.)

Exhibit 3-70: Potential Cumulative Land Use Effects of the Representative Build Scenarios .....	3-195
Exhibit 3-71: Summary of Potential Cumulative Effects on Water Resources .....	3-199
Exhibit 3-72: Potential Cumulative Effects to Vegetation and Wildlife Habitat .....	3-202
Exhibit 3-73: Summary of Potential Cumulative Effects to Cultural Resources .....	3-206
Exhibit 3-74: Summary Comparison of Impact and Benefits of Project Alternatives .....	3-212

## Chapter 4

Exhibit 4-1: Major Permits Required .....	4-3
Exhibit 4-2: Future I-95 Levels of Service .....	4-7
Exhibit 4-3: Future I-95 Levels of Service Segments .....	4-9
Exhibit 4-4: Branan Field-Chaffee Road Toll Traffic Comparison .....	4-11

## ACRONYMS & ABBREVIATIONS

AADT	Average Annual Daily Traffic
AN	Advanced Notification
APE	Area of Potential Effect
BCA	Bayard Conservation Area
BEBR	Bureau of Economic and Business Research
BFE	Base Flood Elevation
BMP	Best Management Practices
BTU	British Thermal Units
CALTRANS	California Transportation Department
CEI	Construction, Engineering and Inspection
CAR	Contamination Assessment Report
CEQ	Council on Environmental Quality
CFA	Core Foraging Area
CR	County Road
CSE	Contamination Screening Evaluation
CSRP	Conceptual Stage Relocation Plan
dBA	Decibel, A-weighted
DRI	Development of Regional Impact
EFH	Essential Fish Habitat
EIS	Environmental Impact Statement
EJ	Environmental Justice
ESA	Endangered Species Act
ETDM	Efficient Transportation Decision Making
FCMPO	First Coast Metropolitan Planning Organization
FCOB	First Coast Outer Beltway
FDEP	Florida Department of Environmental Protection
FDOT	Florida Department of Transportation
FEMA	Federal Emergency Management Agency
FFA	Florida Forever Act
FHWA	Federal Highway Administration
FMSF	Florida Master Site File
FNAI	Florida Natural Areas Inventory
FPPA	Farmland Protection Policy Act
FUDS	Formerly Used Defense Sites
FWC	Florida Fish and Wildlife Conservation Commission
GIS	Geographic Information System

HOV	High-Occupancy Vehicle
I	Interstate
ITS	Intelligent Transportation Systems
JEA	Jacksonville Electric Authority
LCAR	Limited Contamination Assessment Report
LEP	Limited English Proficiency
LOS	Level of Service
LRST	Leaking Regulated Storage Tank
LRTP	Long Range Transportation Plan
mpg	Miles Per Gallon
MOE	Measures of Effectiveness
MSF	Million Square Feet
NAAQS	National Ambient Air Quality Standards
NAC	Noise Abatement Criteria
NEPA	National Environmental Policy Act
NERPM	Northeast Florida Regional Planning Model
NMFS	National Marine Fisheries Service
NPL/ROD	National Priorities List/Record of Decision

NRHP	National Register of Historic Places
NWI	National Wetlands Inventory
OFW	Outstanding Florida Waters
PIP	Public Involvement Program
P3	Public / Private Partnership
PSWADT	Peak Season Weekday Average Daily Traffic
PUD	Planned Unit Development
RCRA	Resource Conservation and Recovery Act
ROC	Region of Comparison
ROD	Record of Decision
RSA	Resource Study Area
RST	Regulated Storage Tank
SAV	Submerged Aquatic Vegetation
SF	Square Feet
SHPO	State Historic Preservation Officer
SJRWMD	St. Johns River Water Management District
SR	State Road
TMDL	Total Maximum Daily Loads
TNM	Traffic Noise Model
TMSCA	Twelve Mile Swamp Conservation Area
TSD	Treatment, Storage and Disposal

TSM	Transportation Systems Management
TTI	Texas Transportation Institute
US	United States (when referring to a roadway)
U.S.	United States (when referring to the country)
USACE	United States Army Corps of Engineers
USCB	United States Census Bureau
USCG	United States Coast Guard
USDA	United States Department of Agriculture
USDOT	United States Department of Transportation
USEPA	United States Environmental Protection Agency
USFWS	United States Fish and Wildlife Service
USGS	United States Geological Survey
V/C	Volume-to-Capacity
VMT	Vehicle Miles Traveled
WMA	Wildlife Management Area
UMAM	Uniform Mitigation Assessment Methodology
USFWS	United States Fish and Wildlife Service
USCG	United States Coast Guard

## LIST OF TECHNICAL DISCIPLINE REPORTS (located on enclosed CD)

Agency Coordination Memorandum  
Air Quality Technical Memorandum  
Client First Coast Outer Beltway Preliminary Traffic and Revenue Analysis  
Climate Change Technical Memorandum  
Conceptual State Relocation Plan  
Contamination Level 1 Screening Report  
Cultural Resource Overview Survey Technical Memorandum  
Draft Section 4(f) Evaluation  
Economics and Land Use Discipline Report  
Endangered Species Biological Assessment  
Energy Technical Memorandum  
Environmental Justice Discipline Report  
Essential Fish Habitat Discipline Report  
Evacuation Analysis Report  
Geology and Soils Technical Memorandum  
Indirect and Cumulative Effects Discipline Report  
Location Hydraulic Report  
Navigable Waterways Discipline Report  
Noise Study Report  
Public Involvement Program Discipline Report  
Public Services and Utilities Discipline Report  
Section 404(b) Evaluation  
Social Impacts Discipline Report  
St. Johns River Crossing Traffic Analysis Report  
Stormwater and Water Quality Technical Memorandum  
Transportation Technical Memorandum  
Visual Quality Discipline Report  
Wetlands Evaluation Report  
Wildlife and Habitat Discipline Report
